Appraisal Process

Agenda

PMS – Overview

Timelines

Reinforce expectations

Why to conduct Performance reviews

-The employee's Mission, Areas of Responsibility, Objectives and Achievements are captured.
-Opportunity for formal written feedback and dialogue about development and generate documentation with an individual's rating.
-The employee's Career Goals, Mobility wishes and Development Plan to reach these goals are documented Reinforce expectations & recognize achievement of them.
-Generate documentation and record individual rating.

Performance reviews should clarify :

-What is expected from an employee?
-Why is it important?
-How is an employee doing?

Performance Management System

Step -1

Goal Setting & review – Bi-Annual .
April and October.

Step -2

Self review on set goals

Step -3

Joint review meeting between the reviewee and the reviewer

Review and evaluation of:

- Performance against set goals and stated expectations.
- Review of the competencies – Identification of Development areas.
- Individual Development Plans.
- Maturity Assessment.

Step -4

Setting goals and stating expectations for the next cycle

Step -5

Final performance rating input for compensation review

Step -6

KPI Framework & Assessment Model

KPIs

Enabler KPIs

Execution KPIs

Enhancer KPIs

Key performance indicator guidelines

-Limit the individual KPIs to not more than 8 and not less than 6.

- KPIs capturing the employee's "Progress" on the performance management factors i.e., Critical Role Competencies.

- At least one each on Technical and Behavioral Competency

Type	Senior /Principal/Sr. Principal	Associate/Intermediate
Execution KPIs	KPIs related to project/product	KPIs related to project
Enabler KPIs	KPIs related to Tricon	KPIs related to Tricon
Enhancer KPIs	KPIs related to self-development	KPIs related to self-development

Organizational Expectations - Technology Objective Template

EXPECTATIONS	KPI	Notional Examples one of many	Associate	Intermediate	Senior	Principal	Sr. Principal
Value team success over individual success - If something is worth building in the world then it's only worth building with a team and thus your team success comes above all.	Enhancer	Consistency of sprint velocity	10	15	20	20	20
Continuously Improve themselves and the team – Your capability to learn and unlearn as technology rapidly change and evolves further.	Enhancer	Learning new tools and technologies, sharing with team and applying the learning into the work	10	10	10	10	10
Capability of holding yourself and others accountable - Your capability to lead by example and demonstrate accountability.	Execution	End to End Cycle time	10	15	15	15	15
Capability of upholding principles over practices and focus on outcome over output – Capability to understand difference between outcome and output and further demonstrate it in your circle of influence – be it in your delivery teams, customer engagements, communities or the organisation.	Enabler	Upholding Agile Principles [Manifesto for Agile Software Development](https://agilemanifesto.org/) over Scrum Practices	10	10	10	10	10
Demonstrate mastery of disciplines under the craft of software – The more disciplines you pick up the broader your circle of influence. Individuals are encouraged to take help from different communities at Tricon to hone on their skills across disciplines. Senior & Master Engineering Practitioners are expected to hone their skills under multiple disciplines of Engineering and encouraged to hone product & design skills where they choose.	Execution	Software Quality	50	40	35	30	25
Mastery of the craft of leadership - If you choose to hone on your craft of leadership and demonstrate it, you will broaden your circle of influence as well. Individuals can demonstrate leadership influence in their delivery teams, customer engagements, communities or the organisation.	Enabler	Team Culture & Mindset	10	10	10	15	20

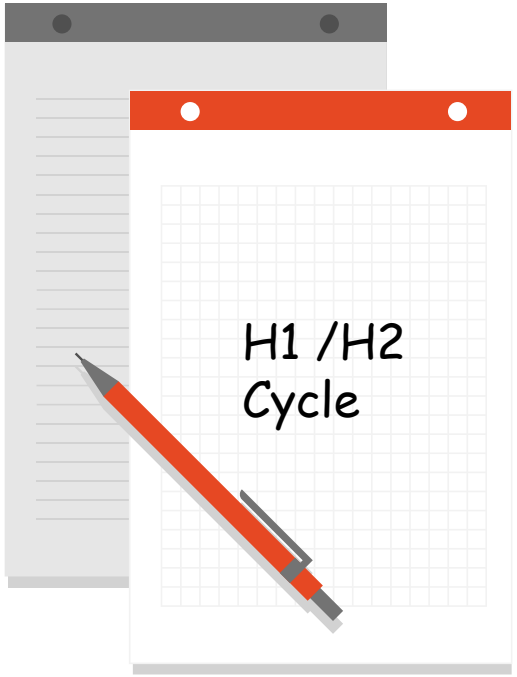

Review Process

Key Features

Performance is reviewed twice a year (H1 & H2).

Goals carry target and weightage

Aggregate score of 2 cycles is used for arriving at overall ranking

The reporting manager under whom the employee falls on a day of either cycle will be the current appraiser. In case of team changes, inputs should be taken from the previous manager. Formal review takes place in both cycle.

Review Cycles

H1

-Midyear – April 1st to September 30th

H2

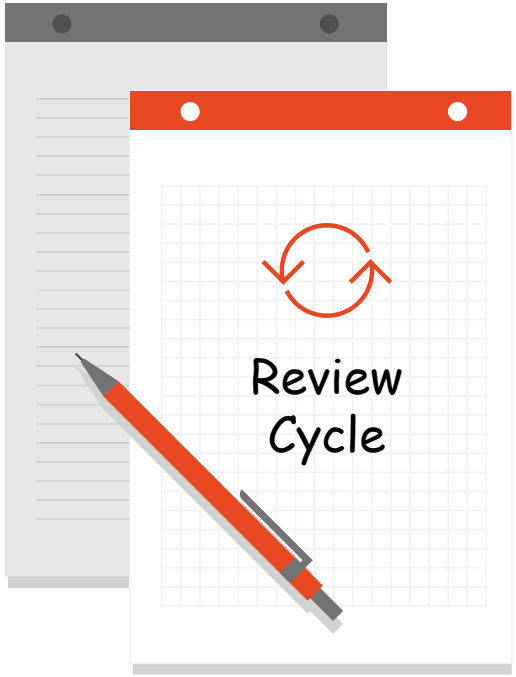

-Annual- October 1st to March 31st

Continued..

Review Period:

If joined before April 1st, the entire relevant cycle, else:

- Midyear – September 30th minus date of joining (all joiners after July 31st will appear in next cycle).
- Annual- March 31st minus date of joining (all joiners after December 31st will appear in next cycle).

Annual Compensation review:

- Annual Compensation Review Cycle is from **April - March**
- Compensation Review will be done only **once a year** in the month of April
- All employees who have **joined before October** are eligible for salary revision on pro rata basis.
- Employees who **have joined between October to March** qualify for salary revision in the subsequent annual cycle
- Performance Assessment will be considered as one of the input for Annual Compensation Review.

Roles and responsibilities

The employee - an active contributor:

Proposes objectives (in line with the department objectives)

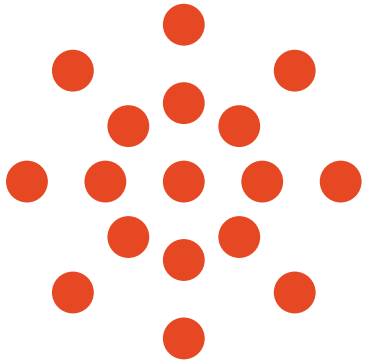

Asks for periodic feedback and development updates.

Self-reviews achievements at the end of the period.

Prepares professional development

The direct manager leads the process:

Clarifies individual roles & responsibilities.

Defines employee objectives, considering the employee's proposals.

Provides regular feedback and organizes intermediate review meetings.

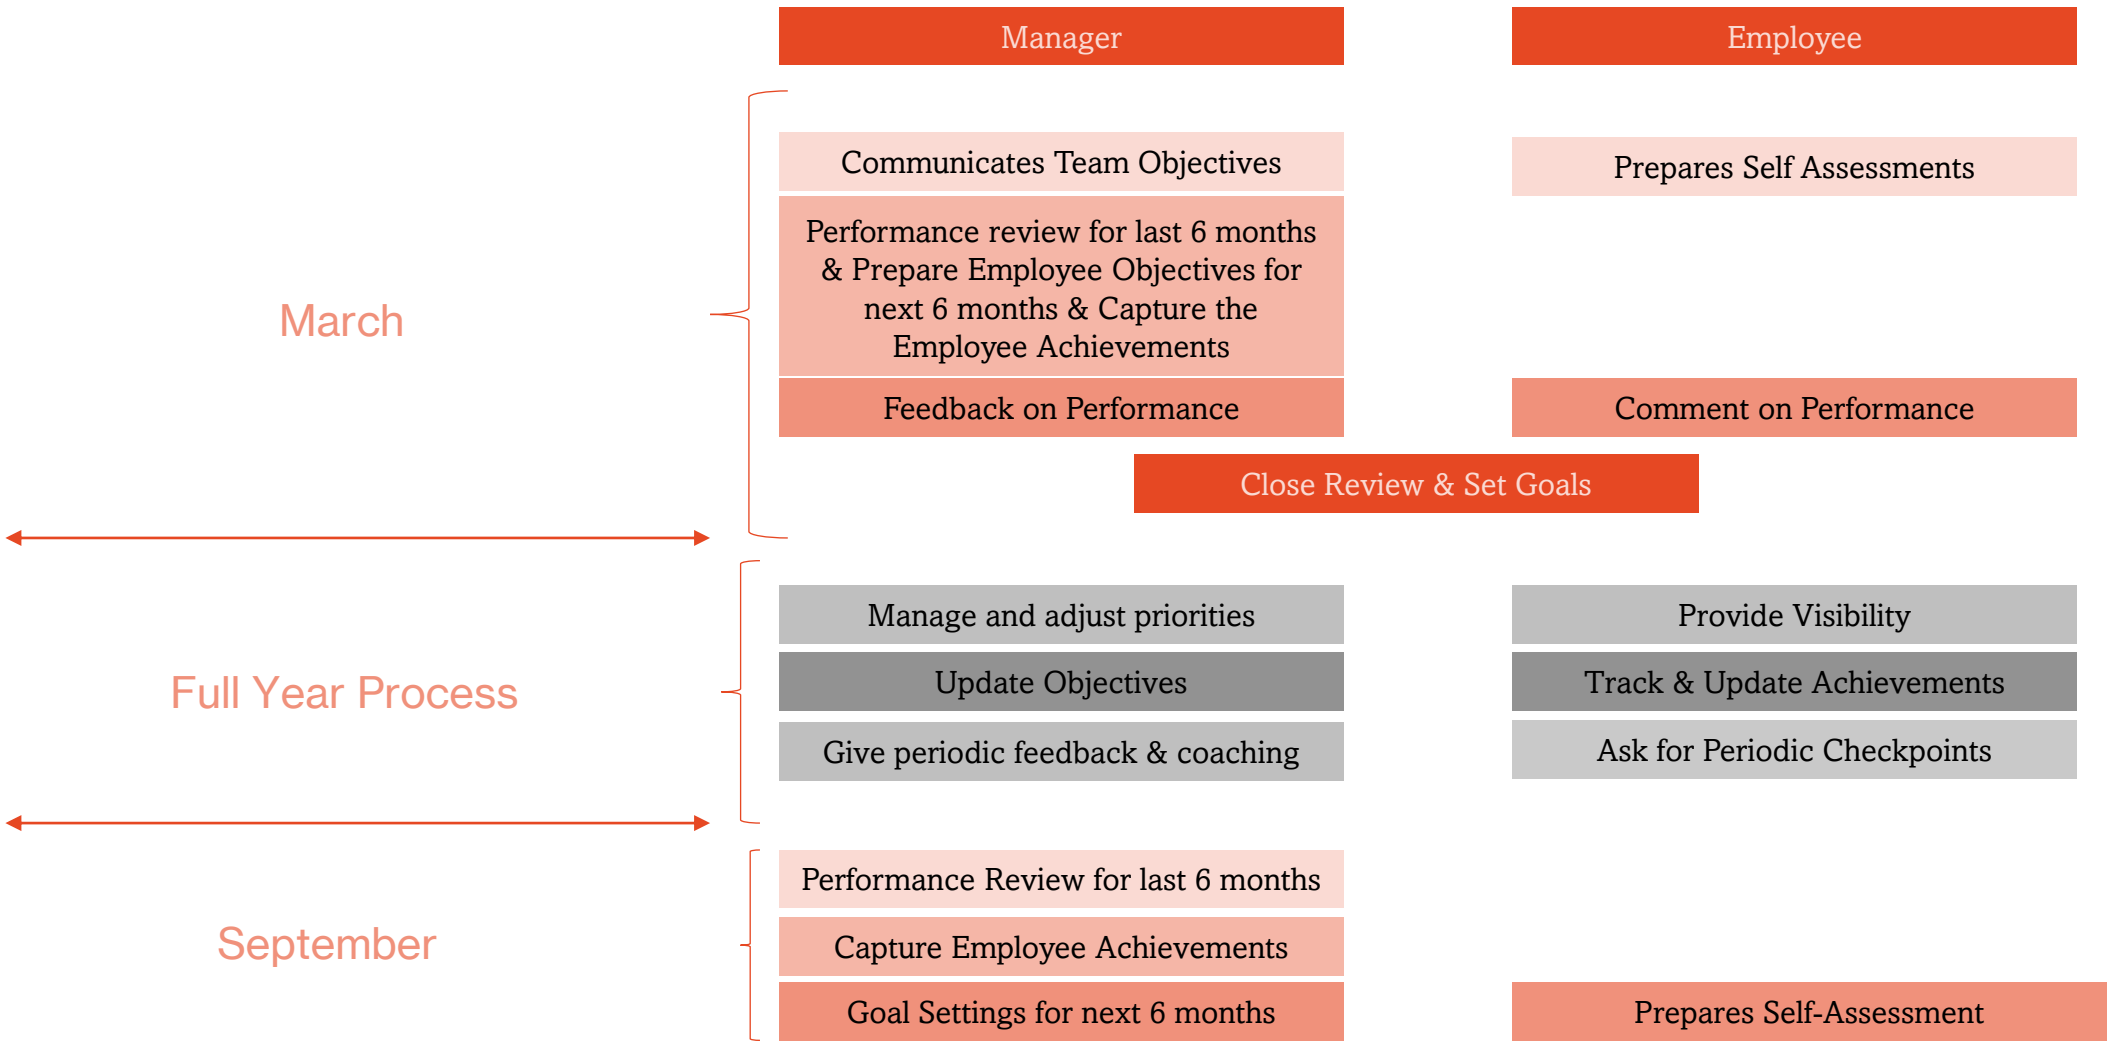

Review objectives according to the priority changes

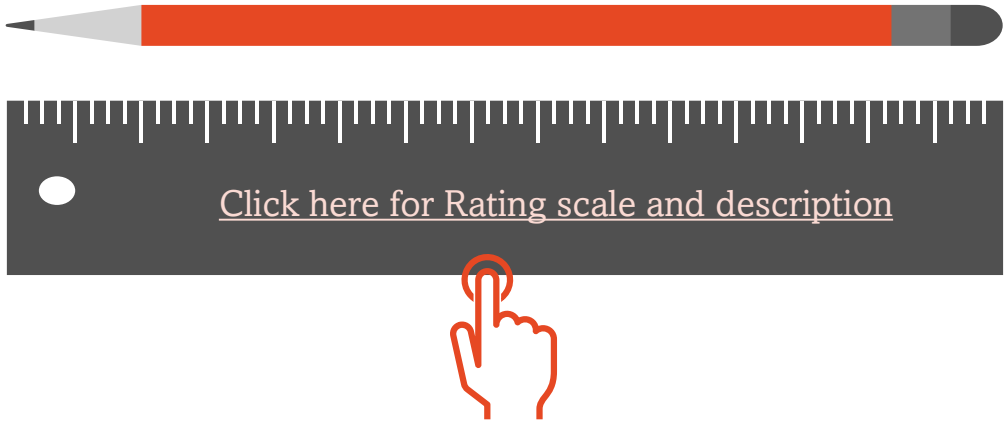

Builds a development plan with the employee

Timelines

Manager
Employee
March
Communicates Team Objectives
Prepares Self Assessments
Performance review for last 6 months & Prepare Employee Objectives for next 6 months & Capture the Employee Achievements
Feedback on Performance
Comment on Performance
Close Review & Set Goals
Full Year Process
Manage and adjust priorities
Provide Visibility
Update Objectives
Track & Update Achievements
Give periodic feedback & coaching
Ask for Periodic Checkpoints
September
Performance Review for last 6 months
Capture Employee Achievements
Goal Settings for next 6 months
Prepares Self-Assessment

Assessment scale

Rating Band	Rating Scale
Supersedes Expectation	4.5 to 5.00
Consistently Exceeds Expectation	4.0 to <4.50
Meets Expectation	3.0 to <4.00
Partially Meets Expectation	2.0 to <3.00
Needs Improvement	<2.00

Thank You
